We manufacture non-standard tanks, structurally tailored to the customer's needs.

PMN BOBREK, BEPIS Branch, is a proven partner and experienced manufacturer of pressure and non-pressure vessels.

Our equipment is used in challenging ammonia, CO₂, glycol, steam, gas, high-energy, compressed air, oil, water and other installations

Steel tanks

- ✓ Ammonia (NH₃) tanks
- ✓ CO₂ tanks
- ✓ Freon tanks
- ✓ Compressed air tanks and oil separators
- ✓ Ice water buffer tanks, glycol
- ✓ Hot water storage tanks
- ✓ Hydrophore tanks
- ✓ Capacitive heat exchangers
- ✓ Hydraulic distributors (junction blocks)
- ✓ Floor-standing and diaphragm expansion vessels
- ✓ Condensate tanks and condensate expanders
- ✓ Desilters and blowdown expanders
- ✓ Vent tanks - flow and non-flow
- ✓ Feed tanks and deaerators
- ✓ Ruth's steam storage tanks
- ✓ Boiler water sample coolers
- ✓ Non-pressure vessels
- ✓ Sewage tanks
- ✓ Tanks according to individual design

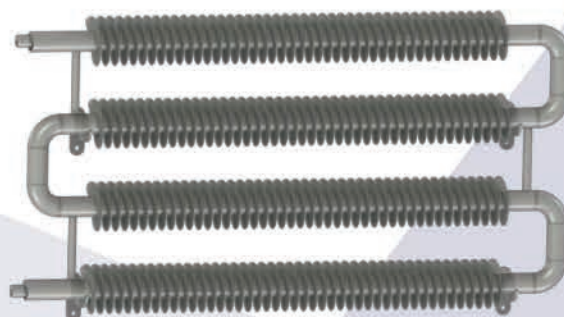

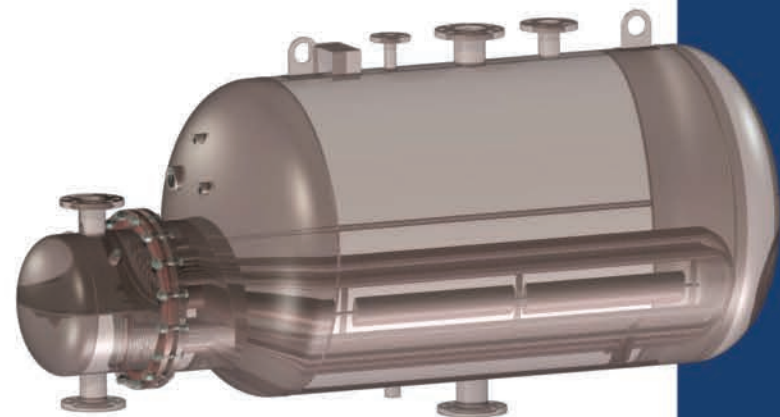

Other products

- ✓ Favier, GP and GS type ribbed and plain steel tube radiators
- ✓ Supports for tanks and impregnated insulating oak blocks
- ✓ Tank and pipeline insulation shells
- ✓ Components for ventilation, air-conditioning and dust extraction systems

Our services include

- ✓ Cutting, bending, coiling of sheets & tubes
- ✓ Insulation for tanks and pipelines
- ✓ Locksmith and sheet metal work
- ✓ Turning and milling
- ✓ X-ray

Our offer is addressed to installation and engineering companies, production plants of various industries, industrial plants, local government enterprises, and design offices.

We manufacture tanks and other products from black and acid-resistant steel.

We design and manufacture tanks and equipment in accordance with the **PED Directive 2014/68/EU** and **PN-EN 13445** or in accordance with the Conditions of the Office of Technical Inspection **WUDT/UC/2003** including the required documentation.

We use certified materials and products for production (3.1/3.2).

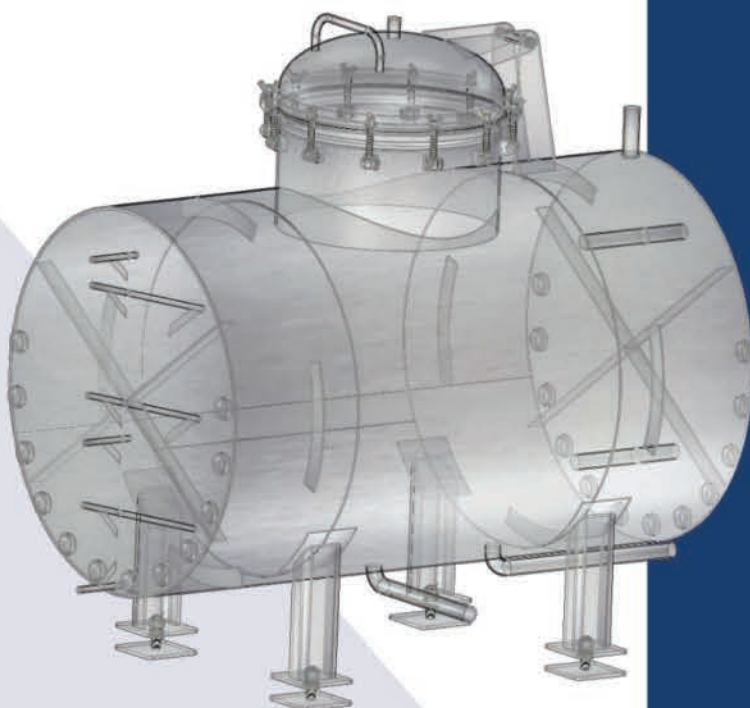

We pay great attention to individual implementations based on customer guidelines, tailored to the needs of a given installation.

We manufacture tanks including the required construction documentation.

Tanks are subjected to tests and examinations as required (we have a station for pressure, X-rays and other tests).

We carry out thermal insulation on tanks and pipelines using mineral wool, rubber and PUR/PIR foam.

We have an expert team to carry out outsourced services.

**We are authorized by the Office of
Technical Inspection to manufacture,
modernize and repair:**

Fixed pressure vessels.

Non-pressure and low-pressure vessels for
poisonous, corrosive and flammable liquids.

Steam and water boilers.

Process pipelines for flammable, poisonous
or corrosive materials.
